

IT Traineeship

Kickstart your career in IT

Fuel your passion for technology and step into the role of a skilled IT professional via our traineeship program. We don't just offer hard skill training; we provide intensive personalised mentorship, gearing you up for a successful career in The Netherlands. Once you've conquered the traineeship, we guide you directly to a role at one of our partner companies, opening doors to abundant growth opportunities. Picture yourself succeeding alongside our alumni who've made their mark at renowned companies like ABN AMRO, Nationale Postcode Loterij, PricewaterhouseCoopers, and many others.

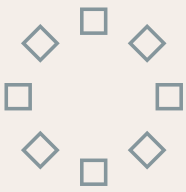

Discover details about the selection process, training schedule, and the comprehensive support and job coaching by watching the recorder webinar below. This webinar features direct engagement with our trainers and alumni who are currently working as IT professionals.

Your profile

- A refugee background with a residence permit.
- English language proficiency at level B2.
- A good understanding of the Dutch language is a plus.
- Experience with or strong affinity with IT.
- Completed education at HBO level or higher (equivalent to a bachelor's degree).
- Strong communication skills and customer orientation.
- Analytical thinking and problem-solving abilities.
- Proactive attitude and eager to learn.
- Flexibility to travel between training locations in Amsterdam and Almere.

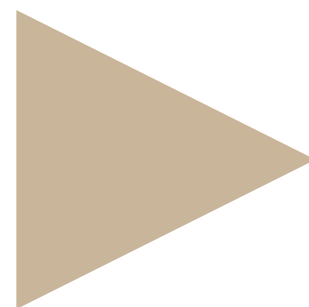

OUR VISION

Your aspirations define you, not your origins.

At Motopp, we embody the spirit of "Motivation Opportunity." Our vision is straightforward – to provide individuals with the right motivation with the opportunities they deserve. We don't judge based on where you come from; we focus on where you aim to go.

Our mission is to train newcomers and facilitate careers that match their level of potential, working collaboratively with municipalities and companies all over the Netherlands. Once you've successfully completed our traineeship program, and we've matched you with one of our partner companies, you will receive a fixed employment contract from Motopp. 96% of our trainees still thrive in their jobs! Our secret? After our traineeship program, you will receive 18 months guidance on the job, to ensure a smooth onboarding in your new work environment.

Upcoming IT traineeship

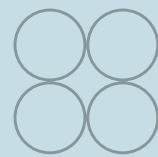

[Apply now](#)

Our offer

- A full-time traineeship program of approximately 6 months that will immerse you in the world of IT, equipping you with a deep understanding of technology and its applications.
- Hands-on software development skills: Gain invaluable experience in software development through practical, hands-on training that forms the bedrock of your IT-expertise
- Expert guidance and mentorship from seasoned professionals who will support you as you navigate your IT career journey.
- Introduction to Dutch work culture by deepening your understanding of workplace dynamics. You will engage in a series of workshops focusing on essential soft skills, including presentation techniques, assertiveness, effective communication, and collaboration.
- Our traineeships are free of cost, we also compensate your travel costs and will provide a laptop if needed.
